

UK Lotto – Beat The Odds By Bending The Rules.

The problem with the UK National Lottery is that it is just too hard to win. And EuroMillions, with its multi-million pound jackpots week in and out would be an absolute dream come true, if you could just find a way of making it a little easier. At odds of 76,275,360 to 1, you really have more chance of being struck by lightning. But despite this, every single week we see the jackpots go into millions of pounds and that means one thing, people are still dreaming, and more importantly they are still playing.

Follow the simple steps I am going to show you in this e-book and not only will you effectively change the rules to make it easier to win, but you will also be playing for free and better still you will be getting paid for doing it over and over again. No, it's not a joke, nor is it illegal, but it is real fun.

OK, LET'S BEAT THE ODDS.

If we take the UK Lotto for an example, it's 13,983,816 to 1 to scoop the jackpot. That's just too much, it's just too high and we need to change that. OK, technically speaking we can't just simply "change" the odds to suit ourselves. I don't think Camelot would allow us to do that.

The only way to reduce that figure is to reduce the number of balls you need to select correctly to win. When we reduce that number to 5 instead of 6, the odds fall massively from 13,983,816 to 1, to a much more favourable figure. Now you have a 1 in 1,712,304 chance of hitting the jackpot, isn't that better?

And the EuroMillions, a hefty 76,275,360 to 1 chance, again it's just crazy. If you didn't have to pick 2 lucky stars as well as the first 5 numbers, the odds would fall to 3,632,160 to 1, an incredible difference and a lot easier.

So now we have far better odds in each lottery and more chance of a win. For the UK Lotto, you pick 5 numbers instead of 6, now 1,712,304 to 1. And for EuroMillions you don't need any stars at all, now 3,632,160 to 1.

AND NOW LET'S BEND THE RULES.

Well this is the easy part really, because someone has already bent the rules for us, and it is 100% legal. They operate under the name of VWD, or Virtual World Direct. At first I thought it must be illegal, so I checked it out down at the [UK Lotteries Council](#). Just click the link, go see for yourself.

When I discovered it was for real, I joined straight away and it only cost £5. Every week, I play in the UK Lotto with a 702% better chance than you, and again in the EuroMillions with a massive 3600% better chance than you. That doesn't seem fair does it, well there's nothing stopping you from doing it too, I will show you how in a minute.

PLAY FOR FREE AND GET PAID TOO.

When I joined, I thought it was so good, I showed it to all my friends, and in fact everyone I knew at work too. Several of them liked it that much, they joined it also. This is where the fun part comes in. VWD actually paid me a commission on behalf of the others players I had introduced. This meant that my lottery tickets were effectively costing me nothing and I was playing both lotteries for FREE. Every week, 124 lines, FREE, I loved it. The more people I showed it to who joined, the more money I got paid. By putting a top quality laminated sticker in the back window of my car, my business was being advertised twenty-four seven, with no other effort. You can get your own designed car sticker from www.thecarsticker.co.uk

So all I do now, is just send this little e-book to everyone who confirms an interest and get them to do the same, and that's it. Absolutely everyone who gets it has the chance to do exactly the same, they quite literally.....

BEAT THE ODDS, BEND THE RULES, PLAY FOR FREE AND GET PAID TOO.

Oh, and before I forget to tell you, I often win more money with all the FREE tickets I get, and I nearly didn't join at first, just because it was a fiver.

Since then, I have discovered that affiliate members can suspend their account at any time for as long as they wish. This is brilliant for the more sceptical people out there, because it means they can suspend their account until they get 5 players to join them. At that point, they re-activate their account, sign up the new players, and carry on playing for FREE. They are now able to build their business without any risk or financial outlay.

Don't hold back with this, because the BBC has reported that around 60% of the UK population spend about £50 per month gambling on sporting events or the lottery, making the industry worth a staggering £42 Billion per year.

It is an absolutely huge market and it is to increase dramatically over the next few years. The sky really is the limit with this opportunity. [CLICK HERE](#) to read the report from the BBC on their own website.

When someone joins VWD from a link in your e-book, you get £1 commission for every week that they continue to play. Get 5 people and your £5.00 commission covers your playing fee and you're playing for FREE.

AND GETTING PAID TOO.

You just keep sending your e-book out to more and more people, and each time someone joins, you will earn another £1 commission for every week they continue to play. VWD will send you a cheque every 4 weeks in pay.

And when the people you sent the e-book to start to catch on, they too will start sending the e-book out to their friends etc. And even though it will have their links in it by this time, you will still earn commissions on the people they introduce, and VWD will also pay this to you every 4 weeks.

It's like any good idea, eventually everyone starts to join in the fun, and you keep on earning, without ever having to do much more than send out a few more copies of your little e-book, which you got FREE [HERE](#).

And don't forget that car sticker, it never stops advertising for you. A top quality sticker from www.thecarsticker.co.uk will get you noticed on-line.
